FRIDAY, FEBRUARY 18, 1842.

NO. 100.

The Bangor Daily Whig and Courier is published at Five Dollars a year, payable half yearly in advance. All subscriptions for less than a year are paid in advance, and all orders for discontinuance must be accompanied by the amount due. The Bangor Courier is published at the office of the Daily Whig & Courier every Tuesday morning, at Two Dollars a year in advance, or Two Dollars and Fifty Cents if not paid within six months from the time of subscribing.

The publishers will not hold themselves responsible for any error that may occur, beyond the amount charged for the advertisement.

Mr. William Field, at the Mechanic's News Room, Boston, is Agent for this paper. Advertisements sent to him will be immediately forwarded.

PROSPECTUS OF THE MONTHLY FARMER. E. HOLMES, Editor.

The proprietors of the FARMER, in order to meet the wishes of many in the community, propose to issue a Monthly Edition of the Maine Farmer, devoted exclusively to Agriculture. It will be published in the usual form and size of the Farmer. As the current news, miscellaneous matter and advertisements will be omitted, the subscribers will obtain as much agricultural matter during the year, though not so many pages, as in the former editions. An index will be furnished at the end of the year. The whole will be afforded at the low price of Fifty cents per annum, payable in all cases in advance. Any person who will obtain six responsible subscribers, and act as agent, shall receive a copy so long as he keeps that number good, for his services. November 1841.

PROSPECTUS OF THE Maine Farmer and Mechanic's Advocate (New Series). E. HOLMES, Editor.

The proprietors of the FARMER, in accordance with the suggestions of their friends, and with a view to meet the wishes of a large number of the subscribers, have come to the conclusion to make a change in the form and size of the paper, on the first of January next. It will be about double the size that it now is. They propose to issue a paper, once per week, in a large folio size, to be called the FARMER and MECHANIC'S ADVOCATE. One page is to be devoted exclusively to Agriculture, and one to Mechanical subjects, frequently illustrated with engravings. One page to the current news of the day, with the proceedings of the Legislature and of Congress when these bodies are in session and the remaining page to be devoted to miscellaneous reading, poetry, advertisements, &c. They propose it is not necessary to enlarge upon the peculiar character or future course of the paper now offered to you. The Maine Farmer has been in existence nine years, steadily and perseveringly devoted to the interest of the productive classes. It will continue, as hitherto, a steady and undeviating friend to the Farmers and Mechanics, zealously urging forward the spirit of improvement, and encouraging the efforts of honest industry. Many of our best practical Farmers have long been engaged in contributing to the columns of the Farmer. These as well as others will continue their aid and assistance in the Agricultural portion, and we have the assurance of many excellent Mechanics that they will also contribute to the columns of their department. Terms: per ann. \$2.50 will be charged if payment is delayed beyond the year. Any person who will obtain six responsible subscribers, and act as Agent, shall receive a copy, so long as he keeps that number good, for his services. Winthrop, Nov. 20, 1841.

THE BEST METHOD FOR THE ABOLITION OF DISEASE, IS TO CLEANSE AND PURIFY THE BODY.

Wright's Indian Vegetable Pills, or Indian Purgative, Of the North American College of Health.

Are now acknowledged to be the best medicine in the world for the cure of EVERY VARIETY OF DISEASE.

Because they thoroughly cleanse the stomach and bowels of those bilious humors which not only paralyze and weaken the digestive organs, but are the cause of headache, nausea and sickness, palpitation of the heart, rheumatic pain in various parts of the body, many other unpleasant complaints.

THE INDIAN VEGETABLE PILLS.

Are also a certain cure for intermittent, remittent, nervous, inflammatory and putrid fevers; because they cleanse the body of those morbid humors, which when confined to the circulation, are the cause of all kinds of FEVERS.

So, also, when morbid humors are deposited upon the membrane, and muscle, causing those pains, inflammation and swellings, called RHEUMATISM, GOUT, &c.

The Indian Vegetable Pills may be relied on as always certain to give relief, and if persevered with, will most assuredly, and without fail, make a perfect cure of the above painful maladies. From three to six of said Indian Vegetable Pills taken every night on going to bed, will in a short time so completely rid the body of every thing that is opposed to health, that Rheumatism, Gout, and pain of every description, will be entirely DRIVEN FROM THE BODY.

From the same reason, when, from sudden changes of atmosphere, or any other cause, the perspiration is checked, and those humors which should pass off by the skin, are thrown inwardly, causing HEADACHE, GIDDINESS, Nausea and sickness, pain in the bones, watery and inflamed eyes, sore throat, hoarseness, coughs, consumptions, rheumatic pains in various parts of the body, and many other symptoms of CATCHING COLD.

THE INDIAN VEGETABLE PILLS will invariably give immediate relief. From three to six of said Pills taken every night on going to bed, will in a short time, not only remove all the above unpleasant symptoms, but the body will be restored to even sounder health than before. The same may be said of ASTHMA, OR DIFFICULTY IN BREATHING.

The Indian Vegetable Pills will loosen and carry off by the stomach and bowels those tough, phlegmy humors which stop up the air cells of the lungs, and are the cause not only of the above distressing complaint, but when neglected, often terminates in a still more dreadful malady called CONSUMPTION.

It should also be remembered that the Indian Vegetable Pills are a certain cure for PAIN IN THE SIDE, Oppression, nausea, and sickness, loss of appetite, constiveness, a yellow tinge of the skin and eyes, and every other symptom of a torpid or diseased state of the liver; because they purge from the body those impurities which if deposited upon this important organ, are the cause of every variety of LIVER COMPLAINT.

CAUTION.

The public will please observe that the genuine medicine has the following wording on the sides of the boxes: WRIGHT'S INDIAN VEGETABLE PILLS. (INDIAN PURGATIVE.)

Of the North American College of Health. And also round the border of the label, will be found in small type, "Entered according to the Act of Congress in the year 1840, by WILLIAM WRIGHT, in the Clerk's Office, of the District Court, of the Eastern District of Pennsylvania."

The public will also remember, that all who sell the genuine Indian Vegetable Pills are provided with a certificate of Agency, signed by WILLIAM WRIGHT, VICE PRESIDENT, OF THE NORTH AMERICAN COLLEGE OF HEALTH, and that peddlars, are never in any case allowed to sell the genuine Medicine. All travelling agents will be provided with a certificate of agency as above described, and those who cannot show one will be known as base impostors.

As the public are cautioned against buying Pills of one A. L. Norcross, purporting to be the genuine Indian Vegetable Pills of the North American College of Health, but which are a base counterfeit. Also, beware of one J. B. Rochefort, who is also engaged in the same business.

REMEMBER.

That the only Agent for the genuine Pills in this City is DAVID BUGBEE, Bookkeeper, No. 2, Kennebec Bridge, which is the only place where the genuine can be had in Bangor.

The following gentlemen have been appointed Agents for the sale of the above valuable medicine: Bangor: DAVID BUGBEE, Bookkeeper. Frankfort: J. B. Chick. Hampden: C. Hopkins. Grand: John A. Chase & Co. Milford: Howard & Hall. Orono: Atwood & Sweet. Brewer: Lower Village: Daniel Sargent. Lewiston: D. L. Vaughan. Dover: S. D. Dyer. Portland: M. J. Sweet. Bangor: C. B. Bannard & Co. TO THE LADIES. INTELLECTUAL DEVELOPMENT AND PERSONAL BEAUTY CONSIDERED IN CONNECTION WITH DOCT. FELIX GOURAUD'S POUDDRE SUBTILE.

The sculptor whose study is to imitate the exquisite workmanship of nature, portrays in his model of the human form a broad and elevated forehead. This development is not only consistent with, but sometimes necessary to the possession of a high order of mental faculty. If a fine forehead is a mark of intellect, it is no less an essential element of personal beauty, and it is of importance to those, and there are many such, possessed of this prominent feature, though obscured by the encroachments of a too luxuriant growth of hair, to remove that portion of an excrescence which tends, in its case only to deform. This can be done safely, speedily, effectually, and, if used in accordance with directions, without the least inconvenience, by Dr. Felix Gouraud's Depilatory Powders. The fulzein of the lip, when annoying, or the short hair on the back of a lady's neck, when too apparent, the hair of a mole, or the beard, when it appears on the cheek, may all be removed, and eventually the roots destroyed, by the use of this preparation.

Manufactured by Dr. Felix Gouraud, 57, Water Street, one door from Broadway, N. York. \$1.00 per bottle.

GOURAUD'S EAU DE BEAUTE, OR TRUE WATER OF BEAUTY.

For removing Freckles, Tan, Pimples, Blisters, Sores, Burns, and all Cutaneous Eruptions, realizing delicate white hands, neck and arms and eliciting a healthy juvenile appearance. \$1.50 per bottle.

GOURAUD'S VEGETABLE ROUGE!

Composed of materials from flowers and simple imparts a delicate carnation tinge to the cheek, removable by perspiration or rubbing with a handkerchief or a linen cloth. \$1.50 cents per bottle.

To be had in Bangor at the sole appointed agents, Messrs WHITTIER & GUILD, Drugists. Sept. 13, 1841.

LORRAIN'S PILLS, OR VEGETABLE UNIVERSAL MEDICINE.

OF THE French College of Health, in Paris. THE following letter was received yesterday by mail from Salem: It gives a very evident evidence of the great success of Lorraine's Vegetable Universal Pills.

Sir, I have been for many years suffering from the ravages of Scrofula, and Catarrh of the Hemorrhoids, which at last seated on the vitals, exhibited all the threatening symptoms of a fatal issue. The general inability of all remedies, and the many inquiries as to the thousand different methods of cure, to most of which I had recourse, without receiving benefit. I accidentally noticed a remarkable cure by Lorraine's Pills, and was induced to give them a trial. I sent to Boston and got a box. By the use of them I found immediate relief and was soon restored to a perfect state of health. J. E. NEWHALL.

Salem, 21st May, 1841.

The following letter from J. B. Light, Esq. is worthy of notice.

Sir, I took one of Lorraine's Vegetable Pills last evening for a pain in my head, that had effected me for several days, occasioned by taking cold. I soon felt very calm, and quiet, and a state of general repose came on which had great charms, and I enjoyed one of the most comfortable and refreshing nights rest that I ever did in my life. I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine. Yours truly, Nov. 20th, 1841.

[From Boston Daily Mail.] Somebody wisely says, that a cap loaded with jewels and flowers will not cure the headache, nor gold chains prevent the consumption. Lorraine's Vegetable Pills have done both.

Sir, I have been effectually cured of a severe headache by the use of Lorraine's Pills. SARAH NOYES.

Sir, My daughter had all the threatening symptoms of a Consumption, such as cough, pain in the side, &c., together with general debility, but has had her health restored by Lorraine's Pills. Rev. J. KNIGHT.

New York City, Nov. 1, 1841.

Family Medicine.

Sir, I have used Lorraine's Pills in my family as a family medicine, and I would most earnestly recommend them to all persons, as the best medicine that can be procured. I would not be without them; they operate mildly, and never fail to give immediate relief. Until I used these Pills I was obliged to pay from 20m to \$100 per year for medicines and physicians; since then I have had no other doctor than Dr. Lorraine's Pills. JAMES NEAL.

Hardford, Conn. July 8.

Lame Back.

Sarah Snow was cured of a lame back in one day, when she had been unable to dress herself alone for two weeks.

Susan Jones of Boston, cured in 36 hours of lame back and side of three weeks standing.

Sick Headache.

Mrs. Bird of Providence says, that 'Lorraine's Pills have proved a real blessing to her. It has surprised any thing that has been brought to the public notice. I have been cured of a sick headache that had afflicted me for years, by the use of Lorraine's Pills.

THE CONDITION.

The condition upon which nature gives health to man, is a watchful care to keep his stomach and bowels free from morbid and unhealthy accumulations. Lorraine's Pills admirably effect this, because they cleanse the bowels and purify the blood.

The human body is always healthy when the bowels are regular, the blood circulates freely, and disease invariably commences when otherwise takes place in the bowels.

The extraordinary virtues of Lorraine's Pills depends upon extracts of over 50 different vegetables, all so admirably combined as to purify, nourish and invigorate the human system.

ADMINISTRATOR'S NOTICE.

THE subscriber hereby gives public notice to all concerned that he has been duly appointed and taken upon himself the trust of administrator on the estate of CHARLES CONNER, late of Bangor, in the County of Penobscot, deceased, by giving bond as the law directs; he therefore requests all persons who are indebted to the said deceased's estate to make immediate payment; and those who have any demands thereon, to exhibit the same for settlement to JOHN E. GODFREY, Adm. February 1, 1842.

Double the quantity and better quality than any other for the same Price! Remember this.

LIVER COMPLAINTS, AND ALL SICKNESS & DISEASES.

DR. LIN'S Temperance Life-Bitters, AND CHINESE BLOOD-PILLS.

[The Greatest Secret discovered.] PURGE, purge, purge, has been the cry for the last few years. This has been effectually tried, and yet sufferers have multiplied and died, and why? Not because purging was not necessary, but too much has been done without the tonic to follow, and sustain the system. Purge, you must! The sickly humors of the blood must be carried off, or the accumulation of them prevented. Prevent, then, the growth of such humors.

Why do the Chinese live to such immense ages, and still retain the powers of youth or middle age? Because they purify the blood. The Chinese Blood Pills, so called because they work upon and cleanse the blood are the standard remedy. These Pills will do it; and the Temperance Life-Bitters, when directed, will strengthen the system and prevent the accumulation of the base humors which infest the blood, and which only increase by purges, unless the Bitters are taken after. Buy, then, these Pills and Bitters. Take weekly the Pills and daily the Bitters; and if you are or have been invalid for days, weeks, months, or years, you will find the sickly humors drawn off, and prevented from a return, and the yellow yellow glow of sickness change rapidly to the full blooming glow of health and youthful buoyancy.

There are cases on numerous of these brilliant effects, that time and space forbid an attempt to put them down. Buy and use these medicines, and use no other, and health and strength shall be yours. See wrapper and directions that come with them.

FRAUDULENT COUNTERFEITS.

Will attempt to buy no remedy of the kind unless it have my name, O. C. LIN, M. D. on the wrapper, and also the notice as follows:

"Entered according to Act of Congress, A. D. 1841, by THOS. CONNEL, in the Clerk's Office of the District Court of the United States for the Southern District of New York."

Warranted the only genuine. Messrs. CONNOR & Co. New York, are the sole wholesale Agents for the United States and all neighboring countries.

DOCTOR O. C. LIN. For sale in Bangor by G. W. LADD, corner of Smith's Block, and by A. P. GUILD, Exchange Street.

TO THE OLD AND YOUNG! No! Ye Red Heads & Grey! PHENOMENON IN CHEMISTRY.

Can't India Hair Dye. Colors the Hair and will not stain the Skin.

THIS Dye is in form of a Powder which in plain matter of fact may be applied to the Hair every night; the first night (tinting the lightest red or grey hair to a dark brown, and by repeating a second or third night, to a bright jet black. Any person may, therefore, with the least possible trouble, keep his hair any dark shade or a perfect black; with a positive assurance that the powder, if applied to the skin, will not color it. There is no trouble in removing it from the hair, as in all powders before used. By an occasional application, a person turning grey will never be known to have a grey hair! Discolorations of the scalp with the aucle. There is no coloring in this state of art, as one can easily test.

If these facts are warranted by the gentleman who is a chemist, it is who is the celebrated chemist, Dr. Comstock, author of Comstock's Chemistry, Philosophy, and many other works well known and widely celebrated by the public.

DAILY WHIG AND COURIER.

JOHN P. SAWYER, Proprietor.

FRIDAY, FEBRUARY 18, 1842.

Mr. Chandler's lecture before the Lyceum last evening on the subject of "The Slave Trade," was very interesting, it being both highly amusing and deeply instructive. The weather was quite severe with a high wind, and generally we should not have expected enough present to have made it an object for any one to lecture, but the interest felt to hear Mr. Chandler, gave a very fair house.

Mr. Chandler's visit to our city has been highly satisfactory to his numerous friends. He lectures with great ease, and presents his facts with singular clearness, and with happy arrangement. The two lectures before the Lyceum have been highly honorable to him, and will serve to establish his reputation with our citizens generally.

The Argus states that Captain Coyle has been engaged to take charge of the Steamboat Bangor, to run between Bangor and Boston. The company have, in addition to the Bangor, a new boat, the Express, and will run one or both as the travel may demand.

These arrangements with the new boat, commanded by Capt. S. H. Howes, and the skill which will be displayed in the management of both the companies will afford the best facilities for traveling with comfort to be found in the country. The scenery upon our noble river, and the comforts of our little city will be more generally known, because larger numbers than ever will probably enjoy them.

We should have mentioned yesterday that the gale forced a very full tide into the river and that it rose several feet higher than usual, and thus came in contact with the stores in the disement of stores on the wharves. The fire thus occasioned came near destroying a large part of our city.

A general feeling of uneasiness exists now in having the city exposed by the storage of lime, and the city council will be solicited to pass some ordinance in relation to the subject.

The New York Sun suggests the expediency of that State completing its system of internal improvements, by means of lotteries. It regrets, and even denounces, the abuses which are apt to be introduced in lotteries, but thinks they do not necessarily make a part of the system. The editor quotes Jefferson, in aid of his argument. The experience of the people has, we think, fully condemned lotteries. May the day be distant before they are revived.

The New Yorkers appear to enjoy the company of Charles Dickens and his wife with a high relish. The Ball given to him is represented as a splendid affair. Irving and Halleck, and Willis with others, comprising the first men and women in the land, were there to greet him with a hearty welcome.

We learn that Peleg W. Chandler, Esq., will lecture before the Mechanic's Association, at their Hall, this evening. The presence of the women will, of course, be expected, and we can assure them they will be highly entertained.

The Skowhegan Clarion on its declaration of belief will find abundant cause to censure the vote of its political friends in Congress on the Adams' case. Will it do it?

The Boston Miscellany of Literature and Fashion, No. 11, February 1842, Edited by Nathan Hale, and published by Bradbury, Soden & Co. Boston. This is a new periodical designed to be the true and genuine representative of the periodical literature, fine arts, and fashions of New England, and of course will be eagerly sought for, and attentively read. The present number contains two splendid engravings, and a plate of fashions.

The leading article is from the pen of Edward Everett, on American Sculptors in Italy, in which high and well-merited praise is bestowed on our good yankee Hiram Powers, who has taken high rank in the difficult profession in which he is engaged. Alexander H. Everett has a long article on the writing of Madame de Sevigne. The contents in addition are varied, and interesting.

The Miscellany under its present managers can deserve a high rank in the periodical literature of the country, and the hearty encouragement of the reading community.

The Musical Cabinet Part VIII: Feb. 1842.

Are our musical friends aware of the high merits of the musical periodical combining in fact the history and the literature of music, with delightful specimens of written music? Small as we feel our acquaintance with the delicate science and the elegant art of music to be, we find much in the Cabinet to enjoy, and a portion that inspires us with a kind of reverence, as being beyond our knowledge, and on which our best musical scholars pronounce high encomiums.

In addition to the editorial merits of the work it should be remarked, that the mechanical execution is of superior order, and each number is presented in a style of neatness and beauty well fitting to take its place in the parlor with the best executed periodicals of the times.

The Cabinet is edited by Geo. J. Webb, and T. B. Hayward; and published by Bradbury, Soden & Co. in monthly numbers with twelve pages of music and four pages of letter press at \$4.00 a year.

Mr. J. W. C. Chiles, who came to our city a few days since, and was much entertained here, is from Pittsburgh, Pa. The American of that city says that her family were deeply afflicted by the intelligence. She is the daughter of J. A. O'Hara, Esq., and is accounted the richest heiress on the Continent. Her estate being worth between two and three millions of dollars.

Grand Concert.

Mr. Editor: I see by your paper that there is to be a grand concert in this city by the Bangor Harmonic Society this evening. I am glad to see that there is some music yet in our city. I had some fears that the Bankrupt Law, the Hard Times, and other matters less important, had effectually stopped all our music. But no there's music enough, but who is to pay the fiddler? Will our good citizens turn out and lend a helping hand? They doubtless will, for they are fond of the divine art; we had proof of that when the Rainers were here.

I never have attended any of the performances of the Harmonic Society, therefore, cannot say, from personal knowledge, what are their merits; but I am informed that they are of a high order; so high, that were the performers foreigners the Bangor public would fill their house to overflowing, and come away delighted.

Now, if this be so, certainly the Bangor public should patronize this Society. It is very important they should for more reasons than one.

On public occasions good music is always wanted, but it cannot be had unless those who spend their time and money in preparation for such exigency are in some way compensated. And how can they be better compensated than by having their house filled whenever they have a concert?

I understand that the Washingtonians are desirous of having the services of this Society at their convention next week; and the members, no doubt, would be disposed to give them their time if they could afford it. Whether they can afford it, will probably depend somewhat upon the patronage they receive this evening. And, whether the Society will feel disposed to continue together afterwards unless they shall have the encouragement they deserve, I very much doubt. If they do they will take more satisfaction in working for nothing and finding themselves than any class of persons with whom it has been my fortune to be acquainted.

Then let us turn out, one and all, and give them a bumper. We shall lose nothing; I am convinced, but on the other hand shall be highly gratified.

A VETERAN IN THE CAUSE.

It was lately stated that a vessel loaded with iron, had sunk in the neighborhood of Fayal. The following extract of a private letter received by the N. York American, contains the particulars:

"A good deal of sympathy was excited yesterday by the arrival of the ship Vespaian, which brought in the crew and passengers of the ship Galen, that had foundered at sea. The Galen was a Boston vessel, loaded with iron, bound to New York. She had on board between thirty and forty Irish emigrants. She encountered several severe gales, her iron broke loose, and rolling from side to side opened the planks of the vessel. Though all on board worked at the pumps, they found themselves unable to keep her afloat, and accordingly betook themselves to the boats. Within an hour after she was abandoned, the Galen sunk. The V. was in sight at the time, so that all were picked up and brought into Fayal."

From Texas.

By the Neptune, dates from the Texan Capital to the 20th ult. have been received at New Orleans.

A letter of the 20th, published in the Galveston Civilian, says the direct tax law and the bill to regulate executions are now under discussion, and will probably take up much time. The same letter says "Some little difficulties have so far delayed the passage of the tariff bill, but you may be positive that in all material points it will be as high as the scale published."

Iron ore, says the Galveston Advertiser, is found in great abundance in various parts of the republic. In Burnett County, between the Trinity and Neches, the country abounds with this ore. At some future day this may be a source of great national income.

A bill is before Congress, and will probably become a law, requiring postmasters to receive nothing but specie or exchequer bills in payment for postage, from and after the first day of March next.

The Galveston Advertiser says the prospects of that city are highly flattering. The amount of cotton brought to that market this season has been very large, and the cry is "still it comes." The merchants have done a very fair fall and winter's business, and are now replenishing their stocks preparatory to the spring trade.

From St. Augustine.

The Steamer Gen. Clinch, Capt. Brooks, has arrived from St. Johns. E. F. We are indebted to the editor of the St. Augustine News for an extra, forwarded via Picolata, from that office, in advance of the publication of that paper. The intelligence forwarded by him confirms what we published in the Georgian on the 2d inst.

Important from Tampa Bay.

We learn from a correct source, that Colonel Worth, immediately after the escape of Tigertail, despatched a command of Dragoons to the Withlacoochee where the Tallahassee, under Nea-Thluco-E-Mathla, had been previously sent in pursuit of some straggling Creek and other Indians for the purpose of counteracting any defection in that band, which the escape of Tigertail might possibly induce, with orders to seize, if necessary, and bring the whole into Tampa. Which order was promptly and successfully executed; and the 27 warriors composing the band, arrived at Tampa on the 27th ult. and were immediately put on ship board for their voyage to the far West. The Chief, Nea-Thluco-E-Mathla, we are informed, has acted throughout in perfect good faith, though some of his subordinates have manifested a disposition to play false.

Skirmish.

On the 28th ult. near Haw Creeks, Maj. Plymson came upon a party of Indians. The Indians had the first fire, and one was killed and two wounded. The fire was returned by the whites, and they succeeded in capturing two Indians, one of whom being wounded, has since died. Major P. and command, being out of provisions, as they had been out some days scouting, returned to Pilatka, when Lieut. Wessells, in command of Company H. 2d Infantry, immediately went in pursuit of the Indians. The steamer C. Downing, Capt. Fisher, arrived here on Thursday last, from Southard Point. We learn that the steamer Cincinnati, had left Fort Lauderdale for Tampa Bay, with Company I. 4th Artillery, commanded by Capt.

Burke, together with sixty-five Indians. These are the Indians captured, some time since, by Capt. Webb. Two Indian warriors came in at Fort Mifflin, a few days since. They state that there are a number of families at Asapopka, who also desire to come in. [Savannah Georgian.]

Robbery in Montreal.

Eight Thousand Dollars worth of Jewelry stolen. Mr. Savage, the keeper of a fashionable jewelry establishment in Montreal, has had his store plundered of gold watches and other valuable articles, to the amount of \$8,000. Admission was obtained by means of false keys, during a time when the attendants were absent. Mr. S. offers a reward of \$500 for the apprehension of the robbers.

We understand that, sometime the past week, a saw-mill and single-machine, belonging to Jesse Dorman, and also a barn, were burnt in Winslow, near Southwick's tannery. [Water-villonian.]

Fire. A horse and barn in Fairfield, (near Pishon's Ferry) owned occupied by Bowdoin Conner, were destroyed by fire during the present week. [ib.]

MAINE LEGISLATURE.

[Augusta Correspondence.]

State House, Augusta, Wednesday, Feb. 16, 1842.

An order passed by the Senate yesterday, requesting the Land Agent "to report to this Legislature as early as practicable, the amount of the settling lands sold by the Land Agent during the past year - the persons to whom sold the price per acre - where the same is located - also, to whom permits have been granted to cut timber on the State lands, and on what terms - whether any permit of the price has been released to any person, if so, to whom, and the reason of such release - also, the amount of all expenses connected with the sale, settlement and stampage, by the said Land Agent during the year 1841, and the amount of cash received for stampage, was read and passed in concurrence.

The petition of Francis Bowman was referred to the Committee on State Lands in concurrence. Leave to withdraw, on petitions of town of Elliot Assessors of Kennecunkport Benjamin Wiggins, et al. town of Kittery, (in concurrence) petition of John Thing et al. for power to establish Ferry from Bath to Woolwich.

A message was received from the Secretary of State, transmitting the account of B. Collins and the account was referred to the Committee on Accounts.

Orders referred directing the Committee on Accounts to inquire into the expediency of allowing the account of T. P. Berchelder requesting the Committee on Roads and Bridges to inquire into the expediency of repealing the 11, 12 and 13 sections of the 26th chapter of the revised statutes, relating to the use of broad rimmed wheels on the Matinook road, and on the Military road of the U. S.

The report of the Committee on State Lands, on the petition of James Stickney, with accompanying resolve, was taken up, and, after some discussion, laid on the table, and 599 copies ordered to be printed.

Resolve in favor of Henry Warren, read once, and to-morrow assigned.

Passed to be engrossed - Resolve to ascertain the value of Township No. 3, Range 13, and to inquire into circumstances of sale of the same, as amended.

The House then went into the consideration of the Bill, to divide the town of Minot, and incorporate the town of Auburn, which was assigned for to-day. The passage of the bill to be engrossed, was advocated by Messrs. Goff of Alport, Abbot of Belfast, Morse of Bath, and some others, and opposed by Mr. Bunker, of Trenton, and Mr. Tuck of Sedgwick. After a lengthy debate, the yeas and nays were ordered, and the bill passed to be engrossed - yeas 137, nays 27.

Petitions presented and referred - Of Thomas Sawyer, for remuneration for Lands returned the State; of Ward Witham and Betsey Witham to legalize marriage of Selectmen of Green, for separate representation.

The Senate adjourned, at half past one o'clock; after a long discussion upon the County Officer bill, without taking the final question. The amendments offered to the bill, have been successively rejected, and the bill will probably pass precisely as it passed the House. No other business of importance was done by the Senate. The papers from the House, disposed of in concurrence.

From the American Sentinel.

Destruction of American Mechanics. In the anti-tariff speech of Governor Reynolds, of Illinois, the following passage will be found let the American mechanics read and ponder upon it.

"Permit me, Mr. Speaker, to descend in detail on one particular article, which is of primary importance in Illinois, and all over the Union. The merchants in our section purchase from the Eastern cities a great quantity of shoes and boots, and sell them to their customers. For this article the people generally pay cash, and on this article there is a considerable protective duty. Suppose, for the sake of example, the duty is taken off, and the same quantity of shoes and boots are imported from France to our country.

Suppose, again, that the French boots sell for three dollars, being the same quality for which we now pay five dollars under the protective policy. The saving to the farmer would be two dollars on each pair of boots, and shoes in proportion. I may not be literary correct in the prices, but the principle is the same. Will this not be a great saving to the people in process of time?

I consider the north and south of the Mississippi valley all the same country; and I consider, also, the productions of the valley in nature's great storehouse, ready for exportation. We would, therefore, export to France cotton, sugar, tobacco, rice, &c. to pay for the above importations. Payments for our shoes and boots, under the policy, would be made in our produce. Whereas, under the present protective system, we pay for them in cash, and at a much dearer rate.

This is a short history of one article, which is applicable to many others.

"They that have eyes to see, let them see."

Turn hitherward your eyes, you boot and shoemakers, and see what your friend of Illinois prepares for you! He would destroy you all! turn you all out to commons on the prairies of Illinois, or any others that you might attain. "Yes," says a contemporary in this city, "let us buy where we can cheap, and sell where we can dear." What right have the tariff party to make us pay four or five dollars more for an article than I get a British coat for?

This is the patriotism of those who would arrogate to themselves the special title of friends of the people. It is the friendship of the wolf for the lamb. Arise in time, ye mechanics, and strike at the door; ye do not meet and petition Congress to protect you, before next June, every boot and shoemaker, hatter, tailor, blacksmith, cutter, brushmaker, and all the various principal tradesmen and mechanics will be met at the very doors by the foreign competition, under the Compromise Act that it will give foreign labour and foreign productions the market, to your ruin.

Honorable Men Abhor it.

Of all the low devices by which the Sub-Treasury party have "stooped to conquer" since their explicit condemnation by the People there has been none more calculated to excite the scorn and loathing of every generous mind, than the claim they have raised and still maintain against the payment of General Harrison's Funeral Expenses by the Government, and the allowance of the balance of his first year's salary to his desolate widow. The rascality and denunciation of the Whigs for these appropriations have not been confined to the columns of the New Era, the Philadelphia Spirit of the Times, and other especial conduits of the blackguardism of the party, but it has found a place in the columns of the Albany Argus, the Richmond Enquirer, and even on the floor of Congress. Yet this payment of a year's salary to the widow of their beloved Executive, which is charged as an outrage upon the Whigs, is precisely the same as Van Buren and his party did without a cavil for the widow of their formidable, bitter opponent and often vanquisher, De Witt Clinton, upon his death in 1827. The cases are precisely parallel, except that they did for the family of a dead antagonist what the Whigs did for that of their own endeared Chief Magistrate. Mr. Clinton had barely entered upon his official year, when he was suddenly stricken down; and a Legislature of political opponents at once rendered him distinguished funeral honors and voted the balance of his year's salary to his family. Yet for no more than this done for the widow of Gen. Harrison the land has been made to ring with Loco-Foco outcries against Whig profligacy.

We are not surprised to learn that decent members of the Opposition are ashamed of this conduct, and are driven even to manifest their disgust openly. Thus at the late Sub-Treasury State Convention in North Carolina, when the usual slang on this subject was found incorporated in the Address, Win. H. Haywood, one of the ablest and worthiest of the party, arose and entered his solemn protest against it, as undignified, unworthy and despicable. It would perhaps be no more than a just retribution if men of his character should feel compelled to withdraw from a party which habitually stoop to such disgraceful appeals to narrow-minded ignorance and the basest passions. [New York Tribune.]

A Short Sermon on Long Ones.

TEXT. "BE SHORT." Cotton Mather.

My friends, I have forty reasons against long sermons, but, for the sake of brevity, I shall omit all but two.

1st. Long sermons seldom effect the object of preaching. The design of the preacher is to convince, instruct and persuade.

Now to convince, it is not necessary to dig a channel to the understanding as long as the Erie canal, and generally, two good reasons, clearly presented, and powerfully urged, will produce more convictions than twenty. To instruct neither a whole system of theology, nor a world of illustration, nor a vocabulary of words are necessary. Each sentence, the mind rejects. To impress, it is not necessary to thunder loud and loud the oak is riven by a single stroke of lightning; and to persuade the man who cannot be moved in half an hour, will not be teased into submission in an hour and a half. So that all beyond a sermon is lost, and worse than lost; the lover of truth leaves the house of God with a weary body, a jaded mind, and a heavy heart, not because the preaching was not evangelical, or was inappropriate, but because of its unreasonable length.

2d. Long sermons drive not a few from the house of God. How often is the excuse made, "I would attend church but but who can endure an endless sermon?"

Such an apology may indeed arise from an aversion to truth; but let the cause be removed, and this excuse at least will die.

TWO REMARKS.

1. We see one reason why some ministers are so unsuccessful in their preaching. Were they to condense their thoughts, and urge them home by a few, and fervently, with the blessing of God, glorious results would follow.

2d. Let not ministers complain that hearers sleep, nor of inattention, when they take the very way to produce it. Luth. Observer.

Woman's Affections.

The following exquisite anecdote, illustrative of woman's undying affection, is from a life work published in Great Britain, styled "English Maidens."

Sir Robert Barclay, who commanded the British squadron in the battle of Lake Erie, was horribly mutilated by the wounds he received in the action, having lost his right arm and one of his legs. Previously to his leaving England, he was engaged to a young lady to whom he was tenderly attached. Feeling acutely on his return he was a wreck, he sent a friend to the lady, informing her of his mutilated condition, and generously offering to release her from her engagement.

"Tell him," replied the noble girl, "that I will joyfully marry him, if he only has enough of body left to hold his soul!"

The patriarchs before the flood, who lived nine hundred years, scarcely provided for a few days, and we who live but a few days, provided at least for nine hundred years.

"Daddy, are there any liars among Christians?" "Certainly not my son; why do you ask?" "Because uncle John spoke of having several Christian Lyres in his church."
